Code Documentation															
includes:															
	Class Header(s)														
	Method Description	ıs													
	Section Description	s													
	Line comments														
Code Format Includes:															
	Use of White Space														
	Proper Indents														

Thinking: Design & Write effective program solutions that meet specified requirements. /7T													
Criteria	Mark	0		1		2		3		4		5	Comment
Meets Requirements:													
☐ Very Incomplete													
☐ Limited Completion	on												
☐ Mostly Complete													
☐ Fully Complete													
☐ Fully Complete/G	ood												
Design													
Code Execution:													
☐ Complete													
☐ No runtime error	S												

Application: Applies programming skills to implement required program features /14A
